## ARCA organics Microgreens

We grow a variety of organic microgreens, sold by the flat or by the pound. Loaded with vitamins and minerals, microgreens are packed with flavor, from nutty (sunflower sprouts) to spicy (radish sprouts) and are a wonderful, colorful addition to salads, sandwiches, and more!

**CUSTOM ORDERS** A variety of microgreens can be custom grown in 10 inch by 10 inch and 10 inch by 20 inch flats. They are also available cut and bagged. Inquiries for orders occur twice a week on Monday and Thursday and deliveries are on Tuesday and Friday or by prior arrangement.

Providing organic products grown with skill and care by local friends and neighbors with intellectual and developmental disabilities.

**ARCA Organics** offers **organically grown** microgreens, wheatgrass and wheatgrass supplies to the Albuquerque community.

**ARCA** is a private nonprofit organization dedicated to providing quality services to individuals with intellectual and developmental disabilities. We employ individuals served by ARCA who assist in every step of the production from planting seeds to distributing our produce throughout our community. **ARCAOpeningdoors.org**
